Chairman, Pennsylvania Public Utility Commission
P.O Box 3265
Harrisburg, PA 17105-3265

Dear Chairman Powelson

I am a current resident of Susquehanna County. I am writing to express my full support for the Leatherstocking Gas Company LLC to obtain utility status within Susquehanna County. I believe that the communities within the county this company is targeting stand to benefit tremendously from natural gas service. The availability of natural gas service for our residents and businesses will lower energy cost and reduce environmental emissions from fossil fuels. Additionally I believe the availability of gas service will provide an incentive for new business to move into the area and help retain existing businesses.

After meeting with community leaders in business and government the officers of Leatherstocking have been holding public meetings throughout the region to inform people like me of their plans.

I believe Leatherstocking will be good for the communities it desires to serve. I urge you to move forward on the decision to grant Leatherstocking Gas Company, LLC request to become a natural gas utility in the State of Pennsylvania within Susquehanna County.

I am looking forward to your response.

Sincerely,
