

CORNING NATURAL GAS CORPORATION

MAXWELL COMPRESSOR STATION

Town of Caton, Steuben Co. New York

The Maxwell compressor station is a state of the art low emissions low noise natural gas compression facility used to facilitate the transmission of America's cleanest burning, low cost, domestically abundant fossil fuel. The facility is located in Caton, NY. Currently 4 compressor units are on site and operational. The units are in compliance with local and State environmental permitting requirements. The station became fully operational on May 10th 2011. If you have additional questions regarding this facility please contact Russ Miller at 607-936-3755x280
